PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in creating responsive and user-friendly interfaces. I began learning HTML, CSS, and JavaScript in 2023 when I started my IT and have been growing ever since. I am results-driven, skilled in problem-solving, and communicate effectively to achieve goals. I adapt quickly, work well in teams, and have experience using relevant software tools. I am committed to maintaining confidentiality, managing time efficiently, and performing well in fast-paced environments.
