Tools & Platforms: Git, GitHub,
Vercel

CERTIFICATIONS

The Ultimate React Course 2024:
React, Next.js, Redux & More —

Udemy

Creative and detail-oriented Front-End Engineer with hands-on experience building responsive web applications using React, Next.js, TypeScript, and Tailwind CSS. Skilled at translating design concepts into clean, functional, and pixel-perfect interfaces while collaborating effectively with designers, back-end developers, and stakeholders. Passionate about writing maintainable, scalable code and delivering seamless user experiences across devices.

PROFESSIONAL EXPERIENCE

IT Support Analyst - NYSC Service Year, BDO Professional Services

06/2025 – Present | Lagos, Nigeria

Software Development Intern, CapitalSage Technologies

01/2023 – 07/2023 | Ibadan, Nigeria

- Designed and developed Kolomoni Gambia's full marketing website from scratch, building a multi-page responsive interface across 5+ sections including Digital Banking, Agency Banking, Remittances, and Loans, establishing the company's first digital presence in the Gambian market.
- Implemented cross-browser-compatible UI components and integrated third-party touchpoints including Google Forms for agent onboarding and mobile app store deep links, supporting customer acquisition and business growth in a new market.

KEY PROJECTS

Creator Analytics Dashboard , Full-Stack Web Application

2025

- Built a full-stack analytics platform using Next.js, TypeScript, and Tailwind CSS, featuring a secure authentication system with Zod validation and a responsive sidebar navigation layout.
- Implemented mock API integrations to simulate real-world analytics data, visualizing creator performance metrics through interactive dashboards - demonstrating applied data analysis and business intelligence skills.

3D Formula 1 Race Calendar Globe , Interactive Data Visualization

2025

- Built an interactive 3D globe visualization using Three.js and React, mapping global F1 race circuits with hover tooltips, animated race sequences, and dynamic data overlays.
- Implemented spherical coordinate transformations, smooth interaction physics, and chronological race path animations to create an immersive cross-device experience.

AMSAfrica , Association of Medical Schools in Africa

2025

- Built and deployed a multi-page Next.js platform for a pan-African academic organization spanning 10+ countries, implementing dynamic routing, optimized image loading, and a responsive navigation system across 7 distinct page sections.
- Integrated an external conference registration flow and structured content architecture to support member institutions, publications, and news, delivering a scalable platform that serves as the primary digital presence for medical schools across Africa.
